“ To Succeed in Your Mission, You, Must have Single, Minded devotion to you goal”

Dr. A.P.J. Abdul Kalam

About the Preparation of Competitive Examination

In today's time, it is becoming challenging to achieve success in competitive examinations. Applicants work hard for many years to crack the exam, but only some succeed. So, it is essential to strategize the studying methodology to succeed in the exams. So, in today's blog, we will focus on strategic competitive exam preparation.

Understand Your Interest-

Choose the subject and the field of work as per your interest. There are many options in government service that would match your interest. It will keep you motivated while preparing and will also increase the chances of succeeding in the exam.

Understand the Exam Pattern-

The candidate must understand the syllabus of the examination & outline what type of questions are asked in the exam. The candidate must first understand the whole pattern so that preparation & hard work lead to success. Make a plan for the future by knowing about the complete syllabus and pattern.

Make a Good Strategy

The candidate needs to know which subject to study and which topics are essential in it. After understanding this, one can start their preparation and prepare study material on that basis. It would help you cover all the subjects in time and focus on the topics that need more attention to strengthen your preparation.

Set Target –

Create a studying strategy for this after knowing the exam pattern. One must mark which topic or subject you are weak with and in which field you are strong. Based on that, give time to different subjects and the exam preparations. By this, we mean that you can set the small targets for studying achievable time. Gradually you can increase it which would help you in maintaining the follow of preparation. Also, while applying for more than one exam, make sure it is similar to the one which is your primary target.

Keep Yourself Updated –

It is essential to have a grip on the latest current affairs while preparing for a government job. For this, one must read the newspaper and visit the board's site for the latest updates.

Make Notes –

When you prepare for the exam, keep making notes of it to remember things well, and it would help in last-minute revision. While making notes, write the topics point-wise; otherwise, there may be problems in understanding. Also, once a topic is complete, we recommend you read it from the same notes. It would help you in memorizing the content you read.

Be Committed & Keep Practicing

One should be dedicated to his target and stick to the daily study schedule to ensure success in the exam. To get a government job, a candidate must practice continuously. To check your performance, attend the mock tests and practice question papers based on the exam pattern.

Maintain Self Confidence & Stay Positive

One of the crucial powers of humans is their self-confidence. If you have faith in yourself, then you can achieve everything in the world. But for this, one has to work hard, maintain confidence & trust in one inner self, and keep positive thoughts in your mind to stay motivated in the long term.

The Programme is designed for highly motivated Regular students, private student and Ex-student of final

“ Winner are not those who never fail but those who never quit “

Dr. A.P.J. Abdul Kalam
